

**manifold rail**  
**VABM-C8-12E-G14-2-M1-L**  
Part number: 1361863

**FESTO**

**Data sheet**

| Feature                                 | Value                                       |
|-----------------------------------------|---------------------------------------------|
| Grid dimension                          | 12 mm                                       |
| Max. number of valve positions          | 2                                           |
| Corrosion resistance classification CRC | 0 - No corrosion stress                     |
| Max. tightening torque, valve mounting  | 0.6 Nm                                      |
| Max. tightening torque, wall mounting   | 5 Nm                                        |
| Product weight                          | 382 g                                       |
| Pneumatic connection, port 1            | G1/4                                        |
| Pneumatic connection, port 3            | G1/4                                        |
| Pneumatic connection, port 5            | G1/4                                        |
| Materials note                          | Free of copper and PTFE<br>Conforms to RoHS |
| Material manifold                       | Wrought Aluminium alloy                     |
